## 1 Brand Positioning

**"The all-in-one business platform built specifically for US construction contractors."**

Position statement - use this in all marketing materials

### Brand Identity

| Element                     | Definition                                                                                                                                   |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Brand Name</b>           | Clear Build USA                                                                                                                              |
| <b>Tagline</b>              | "Build your business, not just buildings."                                                                                                   |
| <b>Alternative Taglines</b> | "From first lead to final payment - all in one place." / "Run your contracting business like a pro."                                         |
| <b>Primary Color</b>        | Navy #16265a - trust, professionalism, depth                                                                                                 |
| <b>Accent Color</b>         | Green #3FA66B - growth, money, success                                                                                                       |
| <b>Tone of Voice</b>        | Direct, confident, practical. No corporate jargon. Speak like a business owner, not a software company.                                      |
| <b>Personality</b>          | Reliable contractor + smart advisor. The platform knows construction, respects the contractor's time, and makes them look more professional. |

### Positioning Map

| Dimension    | Our Position                                    | Why It Matters                                                                                 |
|--------------|-------------------------------------------------|------------------------------------------------------------------------------------------------|
| Price        | Affordable - \$49/month                         | Under 1/10th the cost of enterprise tools. Less than a tank of gas per month for a contractor. |
| Complexity   | Simple - built for contractors, not accountants | Setup in 10 minutes. No training required. Intuitive enough for a solo handyman.               |
| Completeness | All-in-one - replaces 5+ separate tools         | Eliminates subscription fatigue and data fragmentation.                                        |

---

|                |                                                  |                                                                                         |
|----------------|--------------------------------------------------|-----------------------------------------------------------------------------------------|
| Specialisation | Contractor-specific - not generic small business | Features like change orders, crew roles, job site tracking are built-in, not bolted on. |
|----------------|--------------------------------------------------|-----------------------------------------------------------------------------------------|

---

### Elevator Pitch (30 seconds)

#### USE THIS SCRIPT

"Clear Build USA is a business management app made for US contractors. Instead of juggling Excel spreadsheets, paper quotes, and five different apps, contractors get everything in one place - leads, quotes, projects, invoices, payments, and team management. It takes 10 minutes to set up, costs \$49 a month, and pays for itself the first time a customer approves a quote and pays online instead of you chasing a check for three weeks."

## 2 Target Audience

### Primary Audience: US Construction Contractors

**Solo Contractor**  
1 person · \$200K–\$600K/yr revenue  
  
Does everything himself. Needs to look professional, get paid faster, and stop losing leads because he forgot to follow up.

**Small GC (2–10 crew)**  
Owner + small crew · \$500K–\$3M/yr  
  
Juggling multiple jobs. Needs project visibility, change order management, and team coordination without enterprise software complexity.

**Specialty Trade (10–50)**  
Electrician / Plumber / HVAC / Roofer  
  
Has office staff. Needs professional invoicing, recurring customer management, and scheduling for service calls and estimates.

### Audience Demographics

| Attribute        | Detail                                                                                                          |
|------------------|-----------------------------------------------------------------------------------------------------------------|
| Age range        | 28–55 years old                                                                                                 |
| Geography        | United States - all states; highest density in TX, FL, CA, NY, OH, IL, GA, NC                                   |
| Business size    | 1–50 employees; sweet spot 2–15                                                                                 |
| Annual revenue   | \$100K – \$5M                                                                                                   |
| Tech comfort     | Comfortable with smartphones; skeptical of complex software                                                     |
| Current tools    | Excel/Google Sheets, paper invoices, QuickBooks, phone texts, Google Calendar                                   |
| Decision trigger | Lost a client due to unprofessional quote, didn't get paid for 60+ days, grew past what spreadsheets can handle |
| Buying behaviour | Word of mouth + Google search. Needs to see it work in < 5 minutes. Price-sensitive but ROI-driven.             |

### Audience Pain Points (Use These in Ad Copy)

- "I'm still chasing payment on a job I finished 6 weeks ago." → Clear Build: online payment in one click.

- **"My quotes look like they came from 1995."** → Clear Build: professional branded quotes customers can approve online.
- **"I forget to follow up on leads and lose jobs I should have won."** → Clear Build: lead tracking with heat scores and status pipeline.
- **"I'm paying for 5 different apps that don't talk to each other."** → Clear Build: everything in one platform for \$49/month.
- **"My crew doesn't know what they're supposed to be working on today."** → Clear Build: project tasks and team assignment.
- **"The customer keeps adding scope and I don't have a paper trail."** → Clear Build: change orders sent and approved digitally.

## Secondary Audience: Influencers & Referral Sources

- **Construction trade associations** (NAHB, AGC, NECA, PHCC) - partnership opportunities
- **YouTube / TikTok contractor creators** - "Contractor bro" channels, tool review channels
- **Accountants & bookkeepers** who serve contractors - referral commissions
- **Material suppliers & lumber yards** - co-marketing, digital flyers at point-of-sale
- **Construction-focused Facebook groups** - 50K–200K member communities

### 3 Product Features for Sales

---

Use these descriptions in pitches, emails, landing pages, and ads. Each feature has a **feature name**, a plain-English description, and a **sales hook** to close with.

#### Professional Quote Builder

Build line-item quotes with tax, discount, and job site info. Send via email, SMS, or WhatsApp. Customers approve online - no phone tag.

**HOOK: "Get quotes approved in hours, not days."**

#### Online Invoicing & Payments

Send branded invoices. Customers pay online by card or bank transfer via Stripe. Payment recorded automatically. No more chasing checks.

**HOOK: "Get paid the same day you send the invoice."**

#### Lead Tracking & Heat Scores

Every potential customer enters as a lead. Track their status from first contact to won deal. Hot/Warm/Cold heat scores show who needs attention.

**HOOK: "Stop losing jobs because you forgot to follow up."**

#### Project Management

Track every active job with budgets, timelines, tasks, and team assignments. Know the status of every project without making a single phone call.

**HOOK: "See all your jobs in one dashboard view."**

#### Change Orders

When scope changes, create a change order, send it to the customer, and get written digital approval. No more verbal agreements that turn into disputes.

**HOOK: "Get every scope change approved in writing, instantly."**

#### Scheduling & Booking Links

Set your availability, generate a booking link, and let customers pick a time slot for consultations or site visits. No phone calls needed to schedule meetings.

**HOOK: "Your own Calendly, built into your contractor app."**

#### Communications Inbox

All customer messages in one place - email, SMS, WhatsApp, calls, and notes. See the full conversation history with every contact at a glance.

#### Team Management

Invite your crew and office staff. Assign roles (Owner, Admin, Staff, Crew) so everyone sees exactly what they need and nothing more. Remove someone instantly.

**HOOK: "Never lose a customer conversation again."**

**HOOK: "Your whole team, properly organised, on one platform."**

### **Business Dashboard**

One screen shows you: outstanding invoices, pending quotes, active projects, and a 6-month revenue chart. Know the health of your business in 10 seconds.

**HOOK: "Your entire business, visible at a glance."**

### **AI Business Assistant**

Ask questions, get answers. Powered by Google Gemini AI. Helps with business questions, app navigation, and contractor best practices.

**HOOK: "Like having a business consultant available 24/7."**

### **Fully Customisable Settings**

Your logo, your brand colours, your document numbering (Q-001, INV-001), your email templates. The app represents your business, not ours.

**HOOK: "White-labelled to your business from day one."**

### **Multi-Business Support**

Managing more than one business entity? One account, multiple businesses. Switch between them instantly from the top bar - separate data, one login.

**HOOK: "Run multiple companies from one account."**

## 4 Benefits (Not Just Features)

---

### SALES TIP

Contractors buy outcomes, not software. Lead with the benefit ("get paid faster"), then explain the feature ("online invoice payment via Stripe"). Never lead with the technology.

#### Get Paid Faster

Online payment via Stripe means customers can pay by card or bank transfer the moment they receive the invoice. Average contractors wait 45–60 days for payment. Clear Build customers get paid in days, not weeks. One online payment per month more than covers the \$49 subscription.

---

#### Look More Professional Than Your Competitors

Branded quotes and invoices with your logo, professional layout, and online approval make your business look established and trustworthy. Customers choose contractors they trust - and a professionally delivered quote builds that trust before you even meet.

---

#### Save 5–10 Hours Per Week on Admin

Auto-numbered documents, quote-to-invoice conversion, payment reminders, and email templates eliminate repetitive admin. What used to take an hour now takes minutes. That time goes back to billable work or to going home earlier.

---

#### Protect Yourself from Scope Disputes

Digital change orders with customer approval create a paper trail for every scope change. No more "you said you'd include that" disputes. Every addition is documented, priced, and approved before work starts.

---

#### Win More Jobs with Better Lead Follow-Up

The lead pipeline and heat scores surface which prospects need attention today. Studies show 80% of sales require 5+ follow-ups, yet 44% of contractors give up after one. Clear Build keeps follow-ups visible so no opportunity falls through the cracks.

---

#### Everything in One Place - Cancel Your Other Subscriptions

The average contractor uses 4–7 separate apps (calendar, invoicing, CRM, notes, messaging). Clear Build replaces most of them. One login, one monthly payment, all your business data connected and searchable.

---

#### Scale Your Team Without Losing Control

Role-based access means your crew sees their jobs, your admins see financials, and you stay in control. Add and remove team members instantly. No shared passwords, no data leaks, no

confusion about who can do what.

### ROI Calculator (Use in Sales Conversations)

| Scenario                                          | Without Clear Build   | With Clear Build      | Monthly Value                          |
|---------------------------------------------------|-----------------------|-----------------------|----------------------------------------|
| Invoice paid 30 days faster (avg \$8,000 invoice) | Wait 60 days for \$8K | Paid in < 5 days      | <b>\$66+ in financing cost avoided</b> |
| Admin time saved (5 hrs/week × \$50/hr value)     | 20 hrs/month on admin | 10 hrs/month on admin | <b>\$500/month time savings</b>        |
| 1 extra job won from better follow-up             | Miss 1–2 leads/month  | Capture 1 extra job   | <b>\$500–\$5,000 revenue</b>           |
| <b>Total monthly value</b>                        |                       |                       | <b>\$1,000–\$5,500+</b>                |
| <b>Subscription cost</b>                          |                       |                       | <b>\$49</b>                            |

## 5 Competitor Comparison

### Competitive Landscape

The construction software market has two extremes: enterprise solutions (expensive, complex) and generic small-business tools (missing contractor-specific features). Clear Build USA owns the middle - affordable, contractor-specific, and genuinely easy to use.

| Feature                         | Clear Build USA           | ServiceTitan               | Jobber            | BuilderTrend       | FreshBooks                 |
|---------------------------------|---------------------------|----------------------------|-------------------|--------------------|----------------------------|
| Monthly price                   | <b>\$49/mo</b>            | \$398–<br>\$858/mo         | \$49–<br>\$349/mo | \$299–<br>\$699/mo | \$19–\$55/mo               |
| Free trial                      | ✓ <b>15 days, no card</b> | ✗ <b>Demo only</b>         | ✓ <b>14 days</b>  | ~ <b>Demo only</b> | ✓ <b>30 days</b>           |
| Online quote approval           | ✓ <b>Built-in</b>         | ✓                          | ✓                 | ✓                  | ✗                          |
| Online invoice payment (Stripe) | ✓ <b>Built-in</b>         | ✓                          | ✓                 | ~ <b>Add-on</b>    | ✓                          |
| Change orders                   | ✓ <b>Built-in</b>         | ✓                          | ~ <b>Limited</b>  | ✓                  | ✗                          |
| Lead / CRM pipeline             | ✓ <b>Built-in</b>         | ✓                          | ~ <b>Basic</b>    | ~ <b>Basic</b>     | ✗                          |
| Scheduling & booking links      | ✓ <b>Built-in</b>         | ✓                          | ✓                 | ~ <b>Basic</b>     | ✗                          |
| Team roles & permissions        | ✓ <b>4 roles</b>          | ✓                          | ✓                 | ✓                  | ~ <b>Basic</b>             |
| AI assistant                    | ✓ <b>Gemini AI</b>        | ~ <b>Limited</b>           | ✗                 | ✗                  | ✗                          |
| Multi-business support          | ✓ <b>Built-in</b>         | ✗                          | ✗                 | ✗                  | ~ <b>Separate accounts</b> |
| Setup time                      | <b>&lt; 10 minutes</b>    | Days (onboarding required) | 30–60 mins        | 1–2 days           | 30 mins                    |

|                      |                       |         |      |        |                    |
|----------------------|-----------------------|---------|------|--------|--------------------|
| Target business size | <b>1–50 employees</b> | 50–500+ | 1–50 | 10–500 | 1–10 (freelancers) |
|----------------------|-----------------------|---------|------|--------|--------------------|

## Key Competitive Advantages

- **Price:** 8–17x cheaper than ServiceTitan, 6–14x cheaper than BuilderTrend
- **All-in-one at entry price:** Jobber's scheduling is locked behind \$149+ plans; ours starts at \$49 with everything included
- **AI assistant:** No direct competitor at this price point includes built-in AI
- **Multi-business:** Only platform that natively supports one user with multiple business entities
- **Speed:** Running in < 10 minutes vs. day-long onboarding calls for enterprise tools

## Competitive Objection Handling

| Objection                                | Response                                                                                                                                                                                                                                           |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "I already use Jobber."                  | Jobber's core scheduling is great but their CRM is basic, change orders are limited, and they charge \$149/mo for features we include at \$49/mo. Many contractors run both for a month then switch.                                               |
| "I use FreshBooks for invoicing."        | FreshBooks is excellent for freelancers. It doesn't have lead tracking, change orders, project management, or scheduling. Clear Build is built for the construction lifecycle, not generic services.                                               |
| "ServiceTitan is the industry standard." | ServiceTitan is built for large field service companies (\$400+/month, sales calls required, implementation takes weeks). Clear Build is specifically for contractors under 50 people who need to be running today, not after a 30-day onboarding. |
| "I'll just use Excel / Google Sheets."   | Spreadsheets can't send quotes for online approval, accept online payments, send automated invoice reminders, or give customers a self-service booking page. The first invoice paid online covers 12 months of Clear Build.                        |

## 7 Launch Timeline & Marketing Calendar

### WEEK 1–2 · JUNE 2026

#### Soft Launch - Founder & Friends

Invite 20–30 contractors personally known to the founding team. Offer 3 months free in exchange for feedback and testimonials. Set up support channel. Fix any critical bugs found in real usage.

### WEEK 3–4 · JUNE 2026

#### Public Beta - Organic Traffic

Publish landing page to clearbuildusa.com. Submit to Product Hunt. Post in 5 construction Facebook groups (200K+ combined members). Activate Google Business profile. Publish first 3 blog posts for SEO.

### MONTH 2 · JULY 2026

#### Paid Acquisition Start

Launch Google Ads targeting "contractor invoicing software", "construction estimate app", "contractor management app". Target \$500–\$1,000/month ad spend initially. A/B test 3 landing page variants. Start retargeting trial users who didn't convert.

### MONTH 3 · AUGUST 2026

#### Content & Referral Engine

Launch referral programme (\$25 credit per referred paid user). Publish 10 SEO articles. Reach out to 10 YouTube contractor channels for reviews/sponsorships. Submit to G2, Capterra, Trustpilot for reviews. Target: 25 reviews by end of month.

### MONTH 4–6 · SEP–NOV 2026

#### Partnership Channel

Approach NAHB local chapters for partnership. Reach out to 5 construction-focused accountants for referral partnerships (\$100/converted referral). Co-market with a building materials supplier for co-branded flyers at point-of-sale.

### Q1 2027

#### Scale

Increase paid ads to \$5K+/month (if CAC < \$300). Hire first sales/support person. Launch affiliate programme. Target 500 paying subscribers.

## Marketing Budget Guidance (Monthly)

| Channel                | Month 1–2 | Month 3–6 | Notes                                      |
